Mr Boyle

This is to lodge a review of all decisions made since 3 June 1998 to grant benefit to the applicant subject to section 80BA. The substance of this review is to review the date on which the benefit was granted, and to request that the benefit be granted from the day the standdown under 80BA ended, as is stated in legislation 80BA(4).

This review is applied for on the basis of the decision [2014NZSSAA106]. The applicant became aware of the effect of this decision on their entitlement on or around 16 September 2015, and has lodged this review upon becoming aware that this decision may have highlighted the commencement date of their benefit being improperly calculated. The applicant was unable to lodge a review at an earlier time as they only became aware of the relevant decision on 16 September 2015.

The applicant seeks that, any and every grant of benefit, made to them subject to section 80BA, since 3 June 1998, be reviewed and paid from the day the standdown ended, and that all arrears be paid to the applicant.

Yours truly
